Registration at www.future-food.dk

Dear food producers in Scandinavia,

You are invited to this brand-new conference in Denmark, built by the food industry for the food producers in Scandinavia.

The food industry is facing great challenges and opportunities in the future. The focus of this conference is to provide you with the newest international trends and technologies embracing future challenges, and thus demanding new solutions.

The day opens and ends with two keynote speakers and throughout the day 21 experts deliver their answers in six sessions. In addition, they are available for further discussions at their stands.

Meet key specialists, decision-makers, managers, leaders and sales- and innovation specialists from the food processing industry in Scandinavia, i.e. meat, dairy, food, brewery, confectionary etc.

Partners are representatives from three organisations from Danish Food Cluster, Danish Society of Dairy Technology, and Danish Export Association - Food Tech & Fish Tech joining forces to create an innovative meeting place.

We look forward to welcoming you to Food Processing for the Future.

Meet the experts face to face at their stands

DANISH
TECHNOLOGICAL
INSTITUTE

NIRAS

SKY-LIGHT

Programme

09.00	Registration and coffee		
09.30	Opening and welcome		
09.45	Klaus Grünert Professor & Director of MAPP Aarhus University What does the consumer expect from the food industry? How do we find the unused potential and create more value?		
10.15	Room change		
10.30	Meet the experts in optional parallel sessions		
	Sustainable Packaging	Smarter Cleaning	Intelligent Processing 1
	Transit packaging solutions for optimum product protection <i>Signode</i>	Dry ice blasting - new unique method of cleaning <i>Aquila Triventek</i>	Let your machines talk <i>ABB</i>
	FoodTray – the system solution for sustainable food packaging <i>GEA Food Solution Nordic</i>	Take care of food safety <i>System Cleaners</i>	New inline sensors for intelligent processing systems <i>Q-Interline</i>
	ROADMAP for sustainable film packaging <i>SÜDPACK Verpackungen</i>	BactoBox; a near instant bacteria sensor for smarter cleaning <i>SBT Instruments</i>	Heavily regulated industries <i>Enndress+Hauser</i>
	Recycled packaging for the future <i>Sky-Light</i>	Decontamination while the production is running 24/7 <i>FHS Scandinavia</i>	Advantage in separation technology <i>Tetra Pak</i>
	Panel discussions	Panel discussions	Panel discussions
11.45	Lunch buffet and visit the stands		
13.15	Meet the experts in optional parallel sessions		
	Alternative Protein Sources	From Waste to Value	Intelligent Processing 2
	Effective way to extract protein <i>Landia</i>	How to up-grade food industry side streams to high-quality proteins <i>Danish Technological Institute</i>	Design validation through process simulation <i>NIRAS</i>
	The opportunities of rapeseed <i>DSM</i>	Keep an automated eye on waste reduction <i>Tri Vision</i>	Digitalising the process industry <i>Au2mate</i>
	Riding the plant-based food revolution <i>SPX FLOW</i>	Next level of water re-use <i>Krüger</i>	High quality detection with Long Wave X-rays <i>InnospeXion</i>
	Panel discussions	Panel discussions	Panel discussions
14.15	Coffee and visit the stands		
15.15	Lars Feldskou, Group CPO/SVP at Danish Crown		
15.45	Closing remarks		

Get insights and knowledge sharing
to generate realistic solutions

Meet real industry challenges and lively discussions
